## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment filed September 6, 2006 has been entered; no new claims have been introduced.

### ***Election/Restrictions***

2. This application is in condition for allowance except for the presence of claims 16-21 and 22-29 directed to an invention/a species non-elected without traverse. Accordingly, claims 16-21 and 22-29 been cancelled.

### ***Allowable Subject Matter***

3. Claims 30-39 allowed.

4. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a liquid crystal display panel comprising a first and a second channel processors each coupled to first and second data sources; said first channel processors coupled to a first and second liquid crystal display units and said second channel processor coupled to third and fourth liquid crystal display units; wherein each of the first and second channel processors is operable to control the data from both of the data sources to present on the respectively coupled displays. The above limitations in combination with other claim limitations are not taught or fairly suggested by the prior art nor would it be obvious to modify the references of record so as to yield the device of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
